

EPA RRP—RENOVATION, REPAIR, PAINTING COURSE

**MARCH 31, 2016
8:30AM-5:00PM**

**SPONSORED BY THE NEW BRITAIN
HEALTH DEPARTMENT**

As of April 22, 2010 renovations conducted for compensation must be performed by Certified Renovators and lead safety work practices. The New Britain Health Department is offering an **8 hour Initial RRP Course**.

Once you have completed the Certified Renovator Course, which will be conducted by an EPA-accredited training provider, you are then considered an EPA Certified Renovator. The Certified renovator status will allow you to do lead safe renovation, repair and painting work on pre-1978 housing and in child occupied facilities.

8 Hour Initial RRP Training, What you will learn...

- Why lead based paint is a problem during renovations.
- What the EPA and HUD regulations require of Certified Renovators.
- How to determine if lead passed paint will affect work.
- How to begin work.
- How to set up the work area to contain dust.
- How to work in a lead safe manner.
- How to clean the work area and verify cleanliness.
- How to dispose of waste safely.
- How to document your work.

RENOVATOR CERTIFICATION INCLUDES SUCCESSFUL COMPLETION OF THE TRAINING AND THE END OF COURSE TEST.

The fee for the class is \$50 per person (lunch is included). The cost is being subsidized with a grant from the Connecticut Department of Public Health. The class will be held at New Britain City Hall, room 504, 27 West Main Street. To register for the class, please contact **Bianca Molina at (860) 612-2773**.

Space is limited to the first 20 registrants.
